CONCRETE ROUND BENCH 151 ER Resysta exposed aggregate

Round bench combining high-performance concrete, metal construction and certified wood. The concrete legs are with embossed surface from natural aggregate. The structure is made of marble or granite stones of defined size in different color combinations. The metal structure is electrogalvanized and powder coated. These technological methods protect the metal from corrosion and increase its performance. For Round Bench 151, two certified types of wood are available – spruce softwood and exotic hardwood bamboo. The concrete and planks are further treated with a prot ...
