The off- white, warm white color characteristic of this type of fabric has been supplemented with several warm shades of beige, pink, brown, pure gray, as well as navy blue, the indispensable bottle green and the olive, mandatory this season. When creating this collection, we managed to obtain the loop surface typical of boucles. All thanks to the loop yarn, which was woven into a dense and durable backing invisible from the outside. Thanks to this, the fabric, in addition to its aesthetic values, has gained durability, which is especially important for upholsterers.
