# ABOUT OUR CEO

## Meet Our CEO and Founder - Leopold Mullner

“

Leopold Mullner always believed in the importance of developing people. He saw it as the most lasting impact he could make on any team. He always believed in the power of the human spirit. He believed that if people worked together with a shared purpose, they could achieve anything. This belief drove him to focus on developing people, rather than just producing art. Leopold believed that the most lasting impact he could make was through developing others. He wanted to create an environment where people could thrive and reach their potential. This mind-set led him to focus on reflecting his distinctive mentality on the market as a whole, not just internally.

Throughout his career, Leopold has had many successes but none more satisfying than watching those he has mentored go on to achieve great things themselves. It is this legacy that he is most proud of, and it is what motivates him to continue working hard every day. Now, as an experienced leader, Leopold continues to invest in people. He sees it as the key to sustaining success over the long term. By nurturing talent and supporting growth, he knows he can help create an environment where everyone can thrive.
